What Is Being Done?

The Michigan Department of Transportation (MDOT) will be replacing the Britain Avenue bridge over I-94. Work includes reconstructing the Britain Avenue bridge approaches and the I-94 pavement under the bridge.

When Will This Be Done?

Work will begin in April with all lanes fully reopened to traffic in October.

How Will Traffic Be Affected?

I-94 traffic will have two lanes open in each direction, with all traffic shifted via median crossovers to one side of the roadway or the other. The Britain Avenue bridge will be closed with traffic detoured on Euclid Avenue, Empire Avenue, and Benton Center Road.

MDOT's 2011 road and bridge program supports the creation of jobs, growth of the economy, preservation of the environment and the safety and security of the transportation system.
